

Air 1 provides me and every community within its airwaves with daily positive music and encouraging information and testimonies that helps me through long hours of work, decreasing my stress level throughout the day. Losing these stations would hurt people that come to these stations on purpose or by accident, leaving a void of positive music and spiritual guidance. It is also in the public interest to keep these stations going as they often receive phone calls from people that are hurting deeply and are even suicidal. Air 1 provides help at no cost, but can't do it without the radio stations. Thank you for your time to read these comments. God Bless.
